

# OpenBAS as a Service

Filigran’s OpenBAS as a Service offering provides customers with a full managed, up-to-date OpenBAS enterprise instance in the cloud. Each instance is running in its own tenant to ensure strict segregation between customers.

|                                       | MEDIUM PLAN | LARGE PLAN |
|---------------------------------------|-------------|------------|
| Managed dedicated instance            | ✓           | ✓          |
| Computing                             | 4 vCPU      | 8 vCPU     |
| Memory                                | 8 GB        | 16 GB      |
| Storage                               | 32 GB       | 64 GB      |
| Unlimited connectors and integrations | ✓           | ✓          |
| Unlimited users                       | ✓           | ✓          |
